Cheetah Conservation

Join Mandy Revak, Zoo Educator and Coordinator for the KidScience and Zoo U. programs, as she discusses her recent visit to the Cheetah Conservation Fund's Headquarters in Namibia. Learn about the efforts to study and protect cheetahs in their natural habitat, the programs CCF has created to educate and work with local communities and worldwide partners, and what you can do to support conservation for cheetahs and other African wildlife.

Please [click here](#) to purchase tickets.
